

# BILLY CAMPAGNOLI

## FULL-STACK WEB DEVELOPER

### PROFILE

I am a young technology enthusiast, from an early age video games have caught my attention and over time the internet. As I got older, I was more and more curious about how the games worked and the pages I visited, that's when I was introduced to programming and became more and more fond of it. I recently finished a bootcamp at Academlo as a Full Stack Web Developer. I'm quite a quick learner and confident in my abilities.

### SOFT SKILLS

- Collaboration and teamwork
- Strong communication skills
- Data analysis skills
- Creativity
- Learning capacity
- Analysis and solution of problems
